

TABLE 1. Number, incidence rate¹, and median days² away from work for nonfatal occupational injuries and illnesses involving days away from work³ for musculoskeletal disorders⁴ by nature of injury or illness and ownership, Connecticut, 2014

Nature	Musculoskeletal disorders (MSDs)		
	Number	Incidence rate	Median days away from work
Total private industry ^{5,6,7}	5,460	47.9	10
Traumatic injuries and disorders	5,260	46.1	10
Traumatic injuries to muscles, tendons, ligaments, joints, etc.	4,470	39.2	8
Dislocations	30	.3	127
Herniated discs	30	.3	127
Sprains, strains, tears	4,350	38.1	8
Sprains, strains, tears, unspecified	390	3.4	9
Major tears to muscles, tendons, ligaments	360	3.1	168
Sprains	840	7.3	7
Strains	2,720	23.8	6
Multiple sprains, strains, tears	50	.5	16
Hernias due to traumatic incidents	70	.6	17
Other traumatic injuries and disorders	790	6.9	24
Nonspecified injuries and disorders	790	6.9	24
Soreness, pain, hurt—nonspecified injury	760	6.7	24
Swelling, inflammation, irritation—nonspecified injury	20	.2	16
Diseases and disorders of body systems	200	1.7	23
Nervous system and sense organs diseases	130	1.1	26
Disorders of the peripheral nervous system	130	1.1	26
Carpal tunnel syndrome	130	1.1	26
Musculoskeletal system and connective tissue diseases and disorders	60	.5	21
Soft tissue disorders, except the back	60	.5	21
Other or unspecified tendonitis (tendinitis)	20	.2	4
Total state government ^{5,6,7}	360	68.6	18
Traumatic injuries and disorders	320	61.4	18
Traumatic injuries to muscles, tendons, ligaments, joints, etc.	230	44.2	18
Sprains, strains, tears	230	43.8	18
Major tears to muscles, tendons, ligaments	20	3.7	15
Sprains	30	5.9	16
Strains	170	31.5	18
Other traumatic injuries and disorders	90	17.2	27
Nonspecified injuries and disorders	90	17.2	27
Soreness, pain, hurt—nonspecified injury	70	14.1	20
Diseases and disorders of body systems	40	7.2	18
Nervous system and sense organs diseases	20	3.1	18
Disorders of the peripheral nervous system	20	3.1	18
Carpal tunnel syndrome	20	3.1	18
Musculoskeletal system and connective tissue diseases and disorders	20	4.1	16
Soft tissue disorders, except the back	20	4.1	16
Total local government ^{5,6,7}	770	80.3	10

See footnotes at end of table.

TABLE 1. Number, incidence rate¹, and median days² away from work for nonfatal occupational injuries and illnesses involving days away from work³ for musculoskeletal disorders⁴ by nature of injury or illness and ownership, Connecticut, 2014 — Continued

Nature	Musculoskeletal disorders (MSDs)		
	Number	Incidence rate	Median days away from work
Traumatic injuries and disorders	730	76.7	10
Traumatic injuries to muscles, tendons, ligaments, joints, etc.	640	66.9	11
Sprains, strains, tears	620	64.7	11
Sprains, strains, tears, unspecified	80	8.6	3
Major tears to muscles, tendons, ligaments	60	6.2	34
Sprains	160	17.2	7
Strains	300	31.3	16
Other traumatic injuries and disorders	90	9.8	7
Nonspecified injuries and disorders	90	9.8	7
Soreness, pain, hurt—nonspecified injury	90	9.7	7
Diseases and disorders of body systems	30	3.6	27
Digestive system diseases and disorders	20	1.6	27
Hernia—nontraumatic	20	1.6	27

¹ The incidence rates represent the number of injuries and illnesses per 10,000 full-time workers and were calculated as (N/EH) x 20,000,000, where

N = number of injuries and illnesses

EH = total hours worked by all employees during the calendar year

20,000,000 = base for 10,000 equivalent full-time workers

(working 40 hours per week, 50 weeks per year).

² Median days away from work is the measure used to summarize the varying lengths of absences from work among the cases with days away from work. Half the cases involved more days and half involved fewer days than a specified median. Median days away from work are represented in actual values.

³ Days-away-from-work cases include those that resulted in days away from work, some of which also included job transfer or restriction.

⁴ Musculoskeletal disorders include cases in which the nature of the injury or illness is pinched nerve; herniated disc; meniscus tear; sprains, strains, tears; hernia (traumatic and nontraumatic); pain, swelling, and numbness; carpal or tarsal tunnel syndrome; Raynaud's syndrome or phenomenon; musculoskeletal system and connective tissue diseases and disorders, and when the event or exposure leading to the injury or illness is overexertion and bodily reaction, unspecified; overexertion involving outside sources; repetitive motion involving microtasks; other and multiple exertions or bodily reactions; and rubbed, abraded, or jarred by vibration.

⁵ Excludes farms with fewer than 11 employees.

⁶ Data for Mining (Sector 21 in the *North American Industry Classification System*-- United States, 2012) include establishments not governed by the Mine Safety and Health Administration rules and reporting, such as those in Oil and Gas Extraction and related support activities.

Data for mining operators in coal, metal, and nonmetal mining are provided to BLS by the Mine Safety and Health Administration, U.S. Department of Labor. Independent mining contractors are excluded from the coal, metal, and nonmetal mining industries. These data do not reflect the changes the Occupational Safety and Health Administration made to its recordkeeping requirements effective January 1, 2002; therefore, estimates for these industries are not comparable to estimates in other industries.

⁷ Data for employers in rail transportation are provided to BLS by the Federal Railroad Administration, U.S. Department of Transportation.

Note: Dash indicates data do not meet publication guidelines. Because of rounding and data exclusion of nonclassifiable responses, data may not sum to the totals.
